

The Potential of Natural Climate Solutions

Conserving, restoring, and better managing

U.S. LANDS & WATERS

can mitigate 1/5 of carbon emissions in the U.S., equivalent to removing

EMISSIONS

FROM ALL CARS & TRUCKS

U.S. TIDAL WETLANDS

sequester the carbon

EMISSIONS

OF CLOSE TO HALF A MILLION HOMES

every year

IN 2018
**U.S.
FORESTS**

sequestered
755 million
metric tons
of CO₂
equivalent

equal to
**EMISSIONS
FROM 194
COAL-FIRED
POWER
PLANTS
in 1 year**

2.5 MILES² OF U.S. FORESTS

sequester more CO₂ than

EMISSIONS FROM 2,801 BARRELS OF OIL
